In a perfect world, the Ending Count is equal to the Beginning Count (A) plus Total

Intake (F) minus all Outcomes (R+V). -----> 303 530 833

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

Comments: Incoming Transfers (Line C) does not balance with Total Out Going Transfers (Line J). The variance of 65 is attributed to transfers within the community that are not being tracked until the animals are adopted. Ending counts for 2006 will be adjusted for beginning counts for 2007 to reflect actual on hand and in foster care programs; animals will be tracked as soon as transferred for 2007.

I agree that in completing this form, we have used the Maddie's Fund definitions of "Healthy," "Treatable - Manageable," "Treatable - Rehabilitatable," and "Unhealthy & Untreatable" as set forth in the attached document titled, "Maddie's Fund® Categorizations/Definitions of Shelter Animals."
